President's Letter – Doug AA3S

Competition in radio contests is a major reason for PVRC to exist. From my perspective as a PVRC member, when PVRC wins the club competition in a major contest then the 'peace' of the Universe has been properly preserved!

Definitions of "posse" (pronounced **pah**-see) include Merriam-Webster (via cell-phone Google):

1. A large group often with a common interest
2. A body of persons summoned by a sheriff to assist in preserving the public peace usually in an emergency

That seems to describe well the PVRC membership in general (definition #1) and describes well those members who participate in contests on behalf of PVRC, especially those contests whose outcome is in jeopardy (definition #2). Those contests are most of our 5M contests, BTW.

The PVRC Posse showed up big-time in January's NAQP (the Club Challenge is sponsored by PVRC). PVRC had 87 participants in the CW event Club Challenge and scored highest of the clubs while the next closest club in participants was SMC with 35 (scored in third place). FRC scored a bit higher for second position in this event. PVRC again scored highest of the clubs in the SSB Club Challenge event and with the most participants, 78. The next closest in participants was SMC with 32, although YCCC and Arizona Outlaws scored higher than SMC in this event.

While it was very inconsiderate of the NFL to schedule their January playoff games in the middle of the NAQP contest, an advantage of the PVRC Posse is that many of us could watch our favorite NFL team game, have a lot of BIC at the other times of the contest, and be a meaningful part of the NAQP club win for PVRC! Two fun Saturdays! Your participation in our huge PVRC Posse makes it possible for each of us to add some quality-of-life-balance to our contesting hobby and still 'bask in the glory' of the club achievement. Great stuff!

Monitor the PVRC Reflector for details of the PVRC Galactic Lunch Feb 1st 2025, 01:00 PM Eastern Time. All PVRC members are invited to this Zoom event with a presenter from the UK talking about how the UK will host the World Radio Team Championships Teams in 2026.

Also, our own Tim (Tina) N3QE will tell us about how he has implemented very effective and efficient digital voice techniques to aid in SSB contesting.

Club Competition

Another big month for 5M contests! February 2025 has *four* 5M contests! Something for everyone: SSB, RTTY, CW, 160 meters, two of these contests have no circle!

1. CQ WPX RTTY ARRL/CQ 250-Mile Circle begins 2025-02-08 UTC
2. ARRL DX CW ARRL/CQ 250-Mile Circle begins 2025-02-15 UTC
3. CQ160 SSB PVRC Members Worldwide **No Circle!** begins 2025-02-21 UTC
4. NA QSO Party - RTTY PVRC Members Worldwide **No Circle!** 2025-02-22 UTC

Online Scoreboard

The first State QSO Party with a club competition (i.e. publishes out-of-state club results) appears to be Virginia in March. Previously, PVRC upset the long-time incumbent in that contest. Repeat?

Participate and be radio-active!

73, Doug – AA3S

<u>PVRC Officers:</u>		<u>Trustees:</u>
President:	AA3S Doug Hart	K3MM, N3OC, K2AV, N1RM, W3LPL, N3KN, N8II, W3LL, N3QE

Save the Date: PVRC Galactic Lunch February 1st – Jerome K8LF

The PVRC chapter wide yearly event with President & Treasurer comments and guest speakers. We have two great main presentations:

- **WRTC 2026 - Mark M0DXR Chairman WRTC UK**
- **Next Gen contest voice - N3QE**

Zoom invite will be sent via the PVRC reflector and will be repeated again closer to the event.

ARRL RTTY Round Up K4 Score Comparison – N1RM/K3TN/N4CW

Call	Edition	Class	Power	Score	Totals			80	40	20	15	10
					QSOs	State/Prov	Countries	Q	Q	Q	Q	Q
N1RM	2025-Jan 4	SO Unlimited	HP	62,475	595	58	47	222	158	159	56	
K3TN	2025-Jan 4	SO Unlimited	HP	55,974	491	60	54	58	116	106	111	100
N4CW	2025-Jan 4	Single Op	HP	52,725	555	54	41	77	304	96	78	

(I noticed on 3830scores that fellow K4-users Rick N1RM, Bert N4CW and I ended up pretty close in RTTY RoundUp scores, so I asked them for some commentary – K3TN)

Rick N1RM: (SteppIR at 70', OCF Dipole for 80, 10:06 op time) When I was running, I noticed that the pileups didn't really taper off, they just stopped. Even self-spotting didn't seem to resurrect a run. I don't know why. All I could think of is that maybe there are fewer participants and a higher percentage of them are running. Maybe a lower percentage are operating assisted. I don't really know but it seemed strange.

I guess I would add that if I had the ability to switch to the OCF dipole remotely I would have spent some time on 80M Saturday night which certainly would have helped. As it was, I just went to bed when the rates went down on 40M. I continue to be very pleased with how well the DB18E plays, despite its short boom length

Also, had I not been remote I would probably have been using 1kW instead of 450W. Switching between the two amps currently requires flipping a manual switch at the shack. My signal seemed plenty strong at 450W with the KPA500 so I don't think the extra 3dB would have changed my score very much.

John K3TN: (OCF Dipole at 45 ft, 7:49 op time) Since it was a rainy weekend, my grandkids were sick **and** my wife was away helping my daughter with the sick kids, I deeded a lot more deedles than I usually do - once I got the snowblower ready for duty after little use for years. The downside of the rain is that trees have grown into my Windom and I blew up my KPA-1500 back in 2024 on a rainy day when wet tree branches caused SWR fluctuation. The amp had a long expensive vacation in Watsonville CA – I only ran it at 500w for RU.

I usually start by using the Available Mult Window in N1MM to S&P fast and then grab the first frequency ALT-A brings up that is no longer in use. I also decided at the start to leave a band once I hit 100 QSOs, to make sure I got the easy mults on all bands. That strategy worked pretty well -I colored in all the US/VE mults except for NT/NU/YT without really trying or wasting time in pileups. Conditions were OK, but not great, nice activity level.

Bert N4CW: (9:34 op time) My old Cushcraft X9 was put up around 25 years ago.and now it's stuck on Europe...I've been wanting to replace the rotator for three years now, but haven't gotten around to it. I don't get much support from my wife and kids who think I'm too old to climb (hell, I'm only 84!!!)...but someday, I'll find another T2X (or get my other broken one fixed!). My 40M antenna is a sloping dipole hung at 65' at one end and at about a 45-degree angle to a tree...direct feed with coax, and resonant around 6.8 MHz! As an alternate "beam" I have a Tennadyne T-8 on a rocket launcher at about 35 feet, under treetops where there's room to rotate! It works...and towards Europe, about 2 S-units weaker than the X9!

I operated on and off, really disappointed in using my new/used KPA1500...sure, it puts out the power, but MY GOD!!! when the fans kick into high gear, it's like being behind a jet engine! I had to dig my sound-cancelling earphones out to go into run mode...the amp would heat up and the fans would kick in. Elecraft didn't do me any favors with that design. I'll hang on to it and see if it's the same for CW contests...then i'll probably get rid of it.

Like I said, it was on and off again Saturday, then, on Sunday attending church services between 10 and noon, and the rest of the time on 20 only, shared with the XYL doing "chores" and shopping! So even though I spent more time on 20, overall, there was no real long streak. My best hour on 20 was 67 Q's during the 4PM to 4PM hour. So, there you have it; I had a good time operating, a miserable time listening to the amp while I was CQ'ing a lot, and very joyful working JA and 7Q while working Europeans!

Overall Analysis – by K3TN

Rick and I both had 114 mults, but Rick beat me by 104 QSOs. Rick put more hours in – at my 114 point/minute rate, another hour of BIC could have put me ahead of Rick.

Similarly, Bert beat me by 64 QSOs but my 23 mult lead kept me ahead of him. Bert going unassisted was probably the biggest reason for that but his big 20M QSO count or his beam stuck on EU may have meant he missed out on some mults on 10 and 15.

From ON4UN “[Ethics and Operating Procedures for the Radio Amateur](#)”

Thank You 2024 Donors – Ted WA3AER

During 2024, 86 PVRC members donated to our general fund as well as WRTC2026 tents. Some of them donated more than once. Included in that total are a couple of PVRC Scholarship donations made through our Treasury. Without your generosity, PVRC and activities we support would not survive.

In recognition of the members who supported us in 2024, please see the following list:

AA3S, AB3CV, AC5XK, AG3I, K1BZ, K1EFI, K1HTV, K2AV, K2GO, K2NTO, K2WK, K2YWE, K3AJ, K3EW, K3LU, K3MM, K3RV, K3STX, K3TN, K3WA, K4FTO, K4OV, K4QPL, K4TMC, K4XL, K4ZW, K8LF, KB3VQC, KB3Z, KG3V, KK4ODQ, KK4R, N0YY, N1EK, N1RM, N1WR, N2FT, N2QT, N3KN, N3MK, N3MN, N3QE, N3RR, N3TRW, N3UM, N4AF, N4CF, N4GU, N4IW, N4ZR, N6DW, N8HM, N8II, NC3Y, NC4S, NC4SW, ND3D, ND4D, NN4RB, NR4M, NR4O, NX3Z, W1TRT, W2CDO, W2SC, W3EF, W3FOX, W3IKE, W3LL, W3MAM, W3RMO, W3TAS, W3UL, W3US, W3XG, W3XY, W4KAZ, W4VIC, W4YE, W8KRZ, WA3AER, WB2ZAB, WK3A, WN3F, WN7S, and WX3B

Thank You one and all. Hopefully PVRC members will continue their generosity in 2025 and the coming years.

73 and Best Wishes for a successful 2025 in your Contest and DX pursuits.

Editor’s Last Word – John K3TN

Thanks to W3LPL, K8LF, WA3AER, N1RM and N4CW for contributions to this issue of the PVRC newsletter. A little thin this month as we all recover from the holidays.

I’ve never been much of a station builder so in my 40 years as a PVRCer I have done a lot of guest opping in contests, driving to some pretty awesome stations. I’m not even sure I remember all of them, but the list includes W3LPL, N2FB, K3RT, K3WX, W3GG, K1DQV, N3RR, W3USS, NR4M, KC3EK, K4VV and K3ZO.

In the past 10 years, ever since Mike W4RN turned K4VV into a remote multi-multi, I’ve let the internet do the driving and just walk down the stairs to my basement shack and remotely join the fun from FB stations. In the past year, acquiring an K4 just as Elecraft updated the firmware to support K4:K4 remoting has enabled me to put time in as a remote op at stations near and far – OZ5W, K3AJ, N1RM and W4NF - using identical radios and N1MM logging software but having to learn multiple PC remote control packages such as AnyDesk, VNC and NoMachine.

Multi-op efforts have always been a great way to entice non-contesters to join in on the fun and in-person is still probably the best way to do that. But for non-contesters who live in the remote parts of the PVRC circle, offering them a try at remoting is worth a shot.

The quality and usefulness of the PVRC newsletter depends on contributions from members. If you have photos from club meetings, screenshots of new contest software, or writeups on station improvements or contest war stories, send them in any format to [jpecatore at aol dot com](mailto:jpecatore@aol.com)

From the PVRC Treasurer – Ted WA3AER

PVRC has chosen not to implement an annual dues requirement. We depend on the generosity of all our club members to finance our annual budget. In addition, active PVRC members are expected to participate and submit logs for at least two PVRC Club Competition contests per year.

When contemplating your donation to PVRC, each member should consider the benefit you are receiving from PVRC and its many opportunities for your personal growth in our wonderful hobby, then donate accordingly.

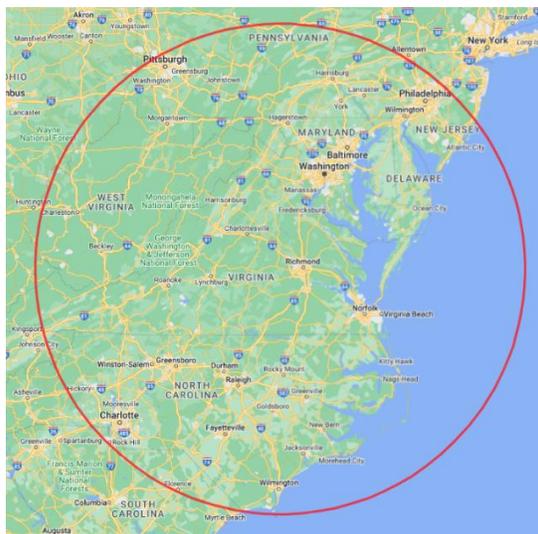

Direct donations to PVRC via Credit Card or PayPal may be made by clicking this "Donate" button and clicking the next Donate button that appears on your screen:

Donations to PVRC are not tax deductible

Eyeball QSO Directions

The latest info on local club meetings and get togethers will always be sent out on the [PVRC reflector](#) and posted on the PVRC [web site](#).

Now a Word From Our Sponsors

PVRC doesn't ask for dues, but the Club does have expenses. You can also support the Club by buying from the firms listed who advertise in the newsletter!

ELECRAFT K4

High-Performance Direct-Sampling SDR

A direct-sampling SDR you'll love to use

Our new K4 transceiver harnesses advanced signal processing while retaining the best aspects of the K3S and P3. It features a 7" touch display, plus a rich set of dedicated controls. Per-VFO transmit metering makes split mode foolproof. Band-stacking registers and per-receiver settings are versatile and intuitive. Control usage information is just one tap away thanks to a built-in help system.

Modular, hybrid architecture adapts to your needs

The basic K4 covers 160-6 m, with dual receive on the same or different bands. The K4D adds diversity receive, with a full set of band-pass filters for the second receiver. (Thanks to direct RF sampling, there's no need for crystal filters in either the K4 or K4D.) The K4HD adds a dual superhet module for extreme-signal environments. Any K4 model can be upgraded to the next level, and future enhancements—such as a planned internal VHF/UHF module—can be added as needed.

Single or dual panadapter, plus a high-resolution tuning aid

The main panadapter can be set up as single or dual. Separate from the main panadapter is our per-receiver *mini-pan* tuning aid, with a resampled bandwidth as narrow as +/- 1 kHz. You can turn it on by tapping either receiver's S-meter or by tapping on a signal of interest, then easily auto-spot or fine tune to the signal.

Comprehensive I/O, plus full remote control

The K4's rear panel includes all the analog and digital I/O you'll ever need. All K-line accessories are supported, including amps, ATUs, and our K-Pod controller. The USB display output supports its own user-specified format. Via Ethernet, the K4 can be 100% remote controlled from a PC, notebook, tablet, or even another K4, with panadapter data included in all remote displays. Work the world from anywhere—in style!

K4 KEY FEATURES

Optimized for ease of use

Modular, upgradeable design

7" color screen with touch and mouse control

ATU with 10:1+ range, 3 antenna jacks

Up to 5 receive antenna sources

Full remote control via Ethernet

The K4 interfaces seamlessly with the KPA500 and KPA1500 amplifiers

'The performance of their products is only eclipsed by their service and support. Truly amazing!' Joe - W1GO

HAM RADIO OUTLET®

WWW.HAMRADIO.COM

Family owned and operated since 1971

IC-9700 | All Mode Tri-Band Transceiver

• VHF/UHF/1.2GHz • Direct Sampling Now Enters the VHF/UHF Arena • 4.3" Touch Screen Color TFT LCD • Real-Time, High-Speed Spectrum Scope & Waterfall Display • Smooth Satellite Operation

IC-PW2 | HF-50 MHz 1kW Linear Amplifier

• 1kW Output Full Duty Single Operator Two Radios (SO2R) • Built-in Automatic Antenna Tuner • Detachable Controller with Touch Screen Display • 2x6 Automatic Antenna Selector - 2 Radio Inputs & 6 Antenna Connections

IC-V3500 | 144MHz FM Mobile

• 65W of Power for Long Range Communications • 4.5 Watts Loud & Clear Audio • Modern White Display & Simple Operation • Weather Channel Receive & Alert Function

IC-7760 | HF150MHz All Mode Transceiver

• New Design-Remote Control Head & Separate RF Deck • Dual Independent Receivers, Spectrum Scope & Waterfall • 200 Watts Output 100% Duty Cycle • Flexible Remote Operation Capabilities

IC-705 | HF/50/144/430 MHz All Mode Transceiver

• RF Direct Sampling • Real-Time Spectrum Scope and Waterfall Display • Large Color Touch Screen • Supports QRP/QRPp • Bluetooth® and Wireless LAN Built-in

ID-50A | VHF/UHF D-STAR Portable

• High Visible LCD with Backlight Function • Find Nearby Repeaters with the Built-In GPS • Easy D-STAR Settings for Beginners • Voice Recorder Function • Share Pictures in DV Mode

IC-7300 | HF/50MHz Transceiver

• RF Direct Sampling System • New "IP+" Function • Class Leading RMDR and Phase Noise Characteristics • 15 Discrete Band-Pass Filters • Built-In Automatic Antenna Tuner

IC-7100 | All Mode Transceiver

• HF/50/144/430/440 MHz Multi-band, Multi-mode, IF DSP • D-STAR DV Mode (Digital Voice + Data) • Intuitive Touch Screen Interface • Built-in RTTY Functions

IC-V86 | VHF 7W HT

• 7W Output Power Plus New Antenna Provides 1.5 Times More Coverage • More Audio, 1500 mW Audio Output • IP54 & MIL-STD 810G-Rugged Design Against Dust & Water • 19 Hours of Long Lasting Battery Life • 200 Memory Channels, 1 Call Channel & 6 Scan Edges

IC-7610 | HF/50 MHz All Mode Transceiver

• Large 7-inch color display with high resolution real-time spectrum scope and waterfall • Independent direct sampling receivers capable of receiving two bands/two modes simultaneously

IC-2730A | VHF/UHF Dual Band Transceiver

• VHF/VHF, UHF/UHF simultaneous receive • 50 watts of output on VHF and UHF • Optional VS-3 Bluetooth® headset • Easy-to-See large white backlight LCD • Controller attachment to the main Unit

IC-T10 | Rugged 144/430 MHz Dual Band

• Disaster Ready - Excellent Fit for Your Emergency Bag • Loud Audio - New Speaker Design • Long Battery Life - Up to 11 Hours • FM Broadcast & Weather Channels

IC-R8600 | Wideband SDR Receiver

10 kHz to 3 GHz Super Wideband Coverage • Real-time Spectrum Scope w/Waterfall Function • Remote Control Function through IP Network or USB Cable • Decodes Digital Incl P25, NXDN™, D-STAR • SD Card Slot for Receiver Recorder

ID-5100 AD | VHF/UHF Dual Band Digital Transceiver

• Analog FM/D-Star DV Mode • SD Card Slot for Voice & Data Storage • 50W Output on VHF/UHF Bands • Integrated GPS Receiver • AM Airband Dualwatch

ID-52A | VHF/UHF D-STAR Portable

• Bluetooth® Communication • Simultaneous Reception in V/V, U/U, V/U and DV/DV • Enriched D-STAR® Features Including the Terminal Mode/Access Point Mode • UHF (225~374.995MHz) Air Band Reception

ID-52A Plus version also available!

- Hybrid SDR Configuration • Unparalleled 70 dB Max. Attenuation VC-Tune • New Generation Scope Display 3DSS • ABI (Active Band Indicator) & MPVD (Multi-Purpose VFO Outer Dial) • PC Remote Control Software to Expand the Operating Range • Includes External Power With Matching Front Speaker

FTDX10 | HF/50MHz 100 W SDR Transceiver

- Narrow Band and Direct Sampling SDR • Down Conversion, 9MHz IF Roofing Filters Produce Excellent Shape Factor • 5" Full-Color Touch Panel w/3D Spectrum Stream • High Speed Auto Antenna Tuner • Microphone Amplifier w/3-Stage Parametric Equalizer • Remote Operation w/optional LAN Unit (SCU-LAN10)

FT-991A | HF/VHF/UHF All Mode Transceiver

Real-time Spectrum Scope with Automatic Scope Control • Multi-color waterfall display • State of the art 32-bit Digital Signal Processing System • 3kHz Roofing Filter for enhanced performance • 3.5 Inch Full Color TFT USB Capable • Internal Automatic Antenna Tuner • High Accuracy TCXO

FTDX101D | HF + 6M Transceiver

- Narrow Band SDR & Direct Sampling SDR • Crystal Roofing Filters Phenomenal Multi-Signal Receiving Characteristics • Unparalleled - 70dB Maximum Attenuation VC-Tune • 15 Separate (HAM 10 + GEN 5) Powerful Band Pass Filters • New Generation Scope Displays 3-Dimensional Spectrum Stream

FT-710 Field version also available!

FT-710 Aess | HF/50MHz 100W SDR Transceiver

- Unmatched SDR Receiving Performance • Band Pass Filters Dedicated for the Amateur Bands • High Res 4.3-inch TFT Color Touch Display • AESS: Acoustic Enhanced Speaker System with SP-40 For High-Fidelity Audio • Built-in High Speed Auto Antenna Tuner

FT-891 | HF+50 MHz All Mode Mobile Transceiver

Stable 100 Watt Output • 32-Bit IF DSP • Large Dot Matrix LCD Display with Quick Spectrum Scope • USB Port Allows Connection to a PC with a Single Cable • CAT Control, PTT/RTTY Control

FT-3185RASP | Heavy-Duty 85W 2M FM Transceiver

- Massive Heatsink Ensures Reliable 85W RF Power • Super-DX Function Increases Receiver Sensitivity & Weak Signal Reception • 221 Memory Channels • Large 6-Character Alpha-Numeric Display

FTM-150RASP | 2M/430MHz FM True Dual Band Xcvr

- Dual Receivers Allowing (V+V, U+U, V+U, U+V) Operation • 55W VHF & 50W UHF • Heavy Duty Heat Sink w/Funnel Air Convection Conductor • Front & Main Body Speaker for 6W High Quality Audio

FTM-500DR | C4FM/FM 144/430MHz Dual Band Xcvr

- Front Firing Acoustically Enhanced Speaker System • True Dual Band Operation, C4FM/C4FM Digital D-D Dual Receive • 2.4" High-Resolution Full-Color Touch Panel Display • Built-in High Precision GPS Receiver • Wireless Operation Capability with Optional Bluetooth® Headset

FT-70DR C4FM/FM 144/430MHz Xcvr

- System Fusion Compatible • Large Front Speaker delivers 700 mW of Loud Audio Output • Automatic Mode Select detects C4FM or Fm Analog and Switches Accordingly • Huge 1,105 Channel Memory Capacity • External DC Jack for DC Supply and Battery Charging

FT-5DR C4FM/FM 144/430 MHz Dual Band

- High-Res Full-Color Touch Screen TFT LCD Display • Easy Hands-Free Operation w/Built-In Bluetooth® Unit • Built-In High Precision GPS Antenna • 1200/9600bps APRS Data Communications • Supports Simultaneous C4FM Digital • Micro SD Card Slot

FT-65R | 144/430 MHz Transceiver

Compact Commercial Grade Rugged Design • Large Front Speaker Delivers 1W of Powerful Clear Audio • 5 Watts of Reliable RF Power Within a compact Body • 3.5-Hour Rapid Charger Included • Large White LED Flashlight, Alarm and Quick Home Channel Access

FTM-6000R | 50W VHF/UHF Mobile Transceiver

- All New User Operating Interface-E20-III (Easy to Operate-III) • Robust Speaker Delivers 3W of Clear, Crisp Receive Audio • Detachable Front Panel Can Be Mounted in Multiple Positions • Supports Optional Bluetooth® Wireless Operation Using the SSM-BT10 or a Commercially Available Bluetooth® Headset

- RETAIL LOCATIONS – Store hours 10:00AM - 5:30PM - Closed Sunday
- PHONE – Toll-free phone hours 9:30AM - 5:30PM
